CLEANING INFORMATION

BC – Bleach Cleanable: 1% parts water + 1% bleach, 20% water solution. Do not clean/dry cleaned fabrics for longer than 1 hour using the 1% bleach solution. Always rinse promptly with clean water after applying the bleach solution. Failure to do so will result in chlorine damage. Avoid any product that contains sodium hypochlorite or other chlorine-based bleach.

W – Water-Based Cleaner: Spot clean, using the foam only from a water-based cleaning agent, such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush or a cotton pad. Always rinse promptly with clean water. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.

WS – Water/Solvent Cleaner: Spot clean with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. Use a non-solvent upholstery shampoo product. Always rinse promptly with clean water. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.

WS B – Water/Solvent Cleanable: Use a non-solvent upholstery shampoo product. Always rinse promptly with clean water. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.

WS D – Water/Solvent Cleanable: Use a non-solvent upholstery shampoo product. Always rinse promptly with clean water. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.

WS E – Water/Solvent Cleanable: Use a non-solvent upholstery shampoo product. Always rinse promptly with clean water. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.

ADDITIONAL INFORMATION

Call TB 130: All patterns comply with California Technical Bulletin 130 when combined with appropriate components.

Abrasion: Multiple factors affect fabric durability and appearance retention, including end-user application and proper maintenance. Wyzenbeek results above 100,000 double rubs have not been shown to be a reliable indicator of increased fabric lifespan.

Specifications: Specifications are correct at the time of printing. Current detailed specifications are available on the MomentumCollection.com website.

**CLEANING INFORMATION**

BC – Bleach Cleanable: 1% bleach, 8 parts water. 10% bleach, 10% water solution. Do not clean/distribute fabrics for longer than 10 minutes using 10% bleach solution. Always rinse promptly with clean water after applying the bleach solution. Follow all instructions for both methods.

W - Water-Based Cleaner: Spot clean, using the foam only from a wool-based cleaning agent, such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush or a cotton cloth. Always rinse promptly with clean water. Blot any dry spills or small area before proceeding.

WS – Water/Solvent Cleaner: Spot clean with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow directions carefully and do not use on wet-doubled treated items. Avoid any product that contains certain surfactants or other toxic materials. With other method, prepare a small area before proceeding. Always rinse promptly with clean water.

**ADDITIONAL INFORMATION**

Cal TB 117: All patterns comply with California Technical Bulletin 117 when combined with appropriate components.

*Abrasion: Multiple factors affect fabric durability and appearance retention, including end-user application and proper maintenance. Wyzenbeek results above 100,000 double rubs may not be shown to be a reliable indicator of increased fabric lifespan.
