APRIL 13, 2020, Ontario, CA — OM's award-winning Werksy® Collection chair blossoms with a dozen striking, new Quilt Collection colors designed by the OM Design Group and developed exclusively for OM. Available in a palette ranging from dusky DeerBrook to red hot Apple Orchard and calming Bermuda, the Werksy Quilt Collection adds another level of comfort and flair to a chair celebrated for its charm and function.

The playful, versatile Werksy Collection is all about the individual. More than a traditional task chair, Werksy is inspired by the unconventional – and now unprecedented – ways people work. Paying tribute to classic form language while celebrating the simplicity of post-adjust-everything task chairs, Werksy provides supreme seating comfort without sacrificing its seamless surface flow and ultra-functional move-ability. The Quilt Collection adds additional warmth and comfort, perfect for these new #WerksyfromHome days.

The Werksy Collection is available in four modes: Guest seating includes a natural waterfall backrest "ledge" that acts as an easy-access arm rest. The light task seating or hoteling chair includes a mechanism that enables a simple forward and backwards tilt for extra comfort. The stool offers a height-adjustable, turn-lock footring and a fixed motion mechanism that lets you Werksy above the fray. The group-work oriented rocking chair offers a confident, smooth ride through its forward pause-perch position into a full arc, rocking back motion to stimulate creative ideas and collaboration. The rocker also offers a unique height adjustable solution and an auto-return swivel for a complete movement experience.

Werksy is available in three shell colors: Modern Black, Palladium Grey, and Arctic White. The new Quilt Collection, offered as fully upholstered or seat-only, is available in a dozen shades: Raven, Stone Pine, Deerbrook, Laluna, Lake Breeze, Vineyard, Haven, Bermuda, Palmetto, Marigold, Sunny Grove, and Apple Orchard.

In this moment of unprecedented change, Werksy re-imagines the modern work environment and re-writes the rules. Whether you intend to collaborate, create, or contemplate, Werksy enables your return to the elementals of work.

About OM

OM is a national leader in mid-market seating solutions for small and large businesses, healthcare environments, educational and governmental institutions, various public and private organizations, and anywhere work happens. Founded in 1986 on an egg ranch in San Marcos, CA, OM has grown from a regional provider of ergonomic task seating into a nationally respected and sought-after source for seating to support today's work spaces.
