Made from premium New Zealand lambswool, Blazer is a timeless wool felt fabric which embodies everything we do: we spin the yarn, weave the cloth, mill the fabric and dye it into our most extensive palette of 77 colorways.

Sustainable, natural, renewable.

Visit www.camirafabrics.com to view the full range of colors available in each pattern. Photographic fabric scans are not color accurate. Always request actual fabric samples before ordering.

Era is a subtle, two tone polyester fabric containing stretch in both directions for ease of upholstery. The baby herringbone weave offers an understated contemporary texture while its coloring technique provides close up intrigue. The palette incorporates playful brights and sophisticated muted tones.

Oceanic is a fabric born of the SEAQUAL INITIATIVE designed to combat marine plastic pollution and achieve a waste free environment. It is created entirely from post-consumer recycled plastic - from plastic debris floating in our seas, used to make SEAQUAL® YARN, to bottles thrown away and destined for landfills. One small drop in the mission to clean both the earth and its ocean, this contemporary fabric is a recycled polyester with a purpose.

Recycled Polyester
from Marine Plastics

Created with a conscience. Quest is a continuation of our partnership with the SEAQUAL INITIATIVE to combat marine plastic pollution. Waste made wonderful: this lightly textured fabric is woven entirely from post-consumer recycled plastic - transforming it into a fabric as fluid as the waves by which it was inspired, and which it seeks to save. With a hopsack weave enhanced by discat-dyed SEAQUAL® YARN, Quest brings a touch of the ocean's natural beauty to interiors.

Inspired by sportswear, RePlay Zero fuses the flexibility of a trainer with the performance of an athlete. A knitted appearance in a woven fabric, together with two-tone micro color detail, creates a futuristic look that is straight out of the sports arena, onto furniture. Made from 100% post-consumer recycled polyester and TCPP free, RePlay Zero is future thinking, forward moving, and environmentally intelligent.

Port is a place of shelter, protection and sanctuary. Taking inspiration from well-known Michigan harbors, which provide a safe anchorage for weary sailors and vessels from rough waters and natural disasters. Similarly on furniture, it protects and upholds in high traffic areas, providing maximum durability. With a palette of 22 soft neutrals and muted tones, Port is the perfect environmentally conscious phthalate free vinyl to help create a positive impact on any interior space.

Vintage is an exquisitely soft natural leather from Western European bull hide stock. This stylish product with a pigmented grain-effect finish is virtually maintenance free, with a water based sealant for added protection.
