

healthcare
connect your story.

OM Seating is committed to helping people enhance their sense of well-being. Whether we're talking about a patient, a provider, the family, or an administrator, our designs are intended to respond to the particulars of human behavior, to encourage appropriate interaction and to create a physical and emotional environment that supports healthy work, healthy lives and healthy outcomes.

Clinical spaces

The functional and ergonomic details at the center of OM Seating's design approach address the way people actually sit and work.
